

Safety Update (Email from Bill Woodcock) – March 8, 2016

“Good Evening,

I followed up with Phil Nichols of the County Executive's Office regarding the crime data for Oakland Mills that we were supplied.

Phil replied that the data in the reports shared with us represented calls, not arrests. For data regarding arrests, and for statistics prior to 2015, Phil advised that I should get that data from Officer Buchanan, which I am in process of doing.

Bill”
