

Proposed 7-11/Gas Station/Car Wash Design for 5901 Stevens Forest Road

During the April 27, 2021 open meeting of the Oakland Mills Board of Directors, a group representing a potential purchaser for the vacant lot at 5901 Stevens Forest Road (a former gas station lot) presented plans for development of this property by building a 7-11 convenience store, gas station, and car wash on the lot. A link to the site plan with the proposed architectural drawings can be found [HERE](#).

This presentation was not an official exterior alteration application for approval of these plans. Rather, it constitutes only the first step in the Oakland Mills Non-Residential Architecture Review Process.

As the second step of the review process, the Oakland Mills Board of Directors is now opening a three-week comment period for members of the community to review and respond to the architectural plans presented. Any comments regarding the plans and/or the exterior architectural aspects of the proposed structures should be submitted to the Oakland Mills Board by email to manager@oaklandmills.org or by postal mail to the Oakland Mills Community Association, 5851 Robert Oliver Place, Columbia, MD 21045. The three-week comment period will be open until Monday, May 26, 2021.
